18V LXT® Lithium-Ion Brushless Cordless 1" Rotary Hammer Kit, accepts SDS-PLUS bits, w/ HEPA Vacuum Attachment

CATALOG (SKU) NUMBER: MK-XRH011X

The built-on vacuum attachment captures concrete dust during drilling and is activated by the tool for operator convenience. Vacuum powered by separate motor to maintain tool drilling performance, and provide a 2-second delay to capture remaining concrete dust. Efficient HEPA filtration system captures 99.75% of particulates .3 microns and larger. Efficient BL Brushless motor is electronically controlled to optimize battery energy use for up to 50% longer run time per charge. The BL Brushless Motor eliminates carbon brushes, enabling the BL Motor to run cooler and more efficiently for longer life. Compact and ergonomic design at only 14-5/8" long. Weighs only 10.2 lbs. with battery for reduced operator fatigue. Variable speed trigger enables user to match the speed to application for greater versatility. Multiple Chisel Positions has 40 different positions to align tool more comfortably with the application. Torque Limiting Clutch prevents gear damage by automatically disengaging gears if the bit binds. Sequential Impact Timing provides timed hammering during rotation to minimize overlapping bit impacts resulting in up to 50% faster drilling. Job site tested shock absorbent handle protect the battery housing for extra durability. Equipped with Star Protection Computer Controls to protect against overloading, over-discharging and over-heating. Rapid Optimum Charger communicates with the battery's built-in chip throughout the charging process to optimize battery life by actively controlling current, voltage and temperature. Rapid Optimum Charger has a built-in fan to cool the battery for faster, more efficient charging. Makita Technology delivers category-leading charge time, so the battery spends more time working and less time sitting on the charger. Compatible with Makita 18V Lithium-Ion batteries with a Star symbol. 3-year limited warranty on tool, battery and charger. Only use genuine Makita batteries and chargers.
