2-1/4 HP* Router - Includes plunge base

CATALOG (SKU) NUMBER: MK-RF1101KIT2

Motor: Powerful 11.0 AMP motor delivers 8,000-24,000 RPM for the most demanding applications. Variable speed control dial enables user to match the speed to the application. Electronic speed control maintains constant speed under load. Soft start feature for smoother start-ups. Low noise (81dB) and low vibration for operator comfort. Rugged aluminum motor housing with slender 3-1/4" diameter for easy handling. Durable flat top design for stability when changing bits. All-ball bearing construction for longer tool life. Externally accessible brushes for greater serviceability. Fixed Base: Industrial cam-lock for fast and easy depth adjustment and removal of motor. Large calibrated depth control ring for easy depth adjustment. Sub base accepts industry standard template guides for convenience. Two all-wood handles. Plunge Base: Conveniently located plunge lock lever for operator convenience. Easy-to-use fine depth adjustment with 3 depth stops for consistent plunge cutting. Nickel-plated plunge poles prevent corrosion for longer tool life. Maximum plunge depth of 2-19/32". Removable clear plastic shield protects the operator from airborne debris. Sub base accepts industry standard template guides for convenience.
