3-1/4" Planer, with Tool Case

CATALOG (SKU) NUMBER: MK-KP0800K

6.5 AMP motor delivers more output power for increased stock removal and superior finishes. Planes up to 3-1/4" wide and 3/32" deep in a single pass. Two-blade cutter head with 17,000 RPM delivers smooth finish and fast stock removal. Spring-loaded stand elevates the base to protect the blades and workpiece. Easy blade setting system for fast blade installation. Precision machined aluminum base for planing accuracy. Equipped with double edge carbide blades for added performance. Rigid die-cast aluminum housing with all-ball bearing construction for longer tool life. High power-to-weight ratio; weighs only 5.7 lbs.. Machined aluminum and balanced planer drum for reduced vibration and added durability. Lock-on button for continuous operation. Click depth adjustment knob with easy-to-read scale with settings from 0" to 3/32" (0.1mm increments) for precise depth adjustment. Ergonomically centered balance with rubberized front and rear handles for added comfort. High quality poly-v belt provides added durability. Can be equipped with large, high speed steel blades (optional accessory). Double insulated.
