7-1/4" Circular Saw

CATALOG (SKU) NUMBER: MK-5007F

Powerful 15 AMP motor delivers 5,800 RPM for proven performance and jobsite durability. Lower guard design improves performance when making bevel and narrow cuts. Large cutting capacity (2-3/8" at 90°, 1-3/4" at 45°). Two built-in LED lights illuminate the line of cut for increased accuracy. Well balanced design for superior handling and performance. Ideal for framers, builders, forming, and siding contractors. Heavy gauge aluminum wraparound base engineered for improved durability and straighter cuts. Built-in dust blower clears the line of cut for greater accuracy. Technologically-advanced centrifugal fan and baffle system for efficient cooling of the motor. Bevel cuts 0-45° for the most common angles. Large and easy-to-read markings on depth and bevel scales. Flat motor housing design increases stability when changing blades. Conveniently located shaft lock for easy blade replacement. AC/DC switch allows for use with alternative power sources. All-ball bearing construction engineered for longer tool life. Double insulated.
