7-1/4" Hypoid Saw

CATALOG (SKU) NUMBER: MK-5477NB

Hypoid gears deliver more power and have greater surface contact than conventional worm drive gears. Powerful 15 AMP motor for increased productivity. Oil bath technology and sealed gear housing for less maintenance. 0°-51.5° bevel capacity with positive stops at 45° and 51.5° is ideal for truss and rafter cut-outs. High quality, heat treated hypoid gears are engineered for long lasting performance. Large cutting capacity (2-3/8" at 90°; 1-3/4" at 45° and 1-9/16" at 50°). Lower guard design improves performance when making bevel and narrow cuts. Oversized top handle for better fit and added comfort. Large levers for fast bevel and depth adjustments. Push button spindle lock for easy blade changes. Blade wrench is attached to the saw for fast and convenient blade changing. Ergonomically designed rubberized grip for improved control. Base plate is chemically treated to resist rust and warping for superior cuts. Reinforced 10 ft. cord withstands jobsite abuse. Large and easy to read markings on depth and bevel scales. Externally accessible brushes for easy replacement and extended tool life. 24T thin kerf carbide tipped blade for fast cutting. Ideal for framers, builders, masons and contractors.
