70 lb. AVT® Breaker Hammer, accepts 1-1/8" Hex bits, Includes Hammer Cart

CATALOG (SKU) NUMBER: MK-HM1810X3

Efficient 15 AMP motor with improved hammer mechanism delivers 46.5 ft.lbs. of impact energy to handle the most demanding applications. Anti-Vibration Technology is an internal counterbalance system that greatly reduces vibration and directs more impact energy to the work surface for increased user comfort and greater productivity. Fixed movement handles for more control and better accuracy. Automatic brush cut-off protects commutator from damage for longer tool life. L.E.D. power light indicates switch failure or cord damage. AC/DC switch for use with alternative power source. Low profile design is engineered for easier movement around uneven surfaces. Large, easy-to-operate switch for operator comfort and control. 16.4 ft. jobsite cord for greater versatility. Cylindrical tool holder enables new bolt holes to be drilled should the original bolts break. Makita Motor Advantage engineered with field core interlocking steel laminations, dual ball bearing armature and more copper commutator bars, increasing energy transfer efficiency for more power and longer tool life.
