7.2-Volt - 18-Volt Ni-Cd/NiMH/Lithium-Ion 1 Hour Dual Port Charger

CATALOG (SKU) NUMBER: DW-DC9320

The DW9320 Dewalt Charger charges (2) Dewalt 7.2 Volt - 18 Volt NiCd/NiMH/Li-Ion batteries (except Univolt batteries) so users need only one charger for multiple cordless products. The Charger charges the battery in 1 hour or less thus minimizing user downtime. The Dewalt 3-stage charging system provides maximum run-time and extends overall life of the battery. The charger comes with an LED indicator which communicates battery charge status: charged, charging, power line problem, replace pack, and battery too hot or too cold.
