PACIFIC Industrial Supply

Rotation Resistant 8X19 EIPS Grade IWRC Wire Rope

CATALOG (SKU) NUMBER: 8X19

- Rotation resistant 8X19 wire rope is typically used as a crane line. The 8 outer strands provide increased flexibility compared to a standard 6X19 class wire rope.
- The 8X19 has a greater nominal breaking strength and offers more crushing resistance than 19X7 wire rope, but less rotation resistance. It can be used in multi=part reeving where only limited rotaion resistance is required.
- Available in import galvanized or domestic bright.
- Manufactured in accordance with RR-W-410 standards.
- Mill test certifications available upon request.
- Nominal breaking strengths slightly vary by manufacturer.
- Most sizes available in import and domestic.
