SeaHook Fluke Anchor

CATALOG (SKU) NUMBER: SD-FA

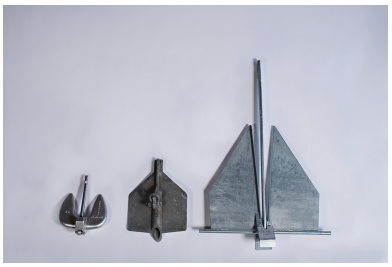

Hot Dipped Galvanized Stamped Steel - The SeaHook SH Series class of anchor is a popular light-use anchor. L-shaped flukes with a shovel-like tip provide quick penetration and maximum holding power. The solid untapered shank allows greater weight distribution at the end of the shank to help keep it parallel with the bottom. The 15° tapered stock increases holding power while allowing debris to slide off when retrieving the anchor. *Weights vary due to metal and coating content. Listed weights are approximate.
