Top Handle Jig Saw, with "Tool-less" Blade Change

CATALOG (SKU) NUMBER: MK-4350FCT

3 orbital settings plus straight cutting with powerful 6.3 AMP motor for cutting in all varieties of materials. Variable speed control dial (800-2,800 SPM) enables user to match the speed to the application for superior results. "Tool-less" blade change system for fast and easy blade installation and removal. Uses Tang shank blades. 40% less tool vibration with the lowest noise level in its class. Built-in LED light illuminates the line of cut for increased accuracy. Electronic speed control maintains constant speed under load. Soft start feature for smooth start-ups. Die-cast aluminum base adjusts up to 45° right or left and positive stop at 90° for solid cutting performance. Ergonomically designed rubberized top handle grip for added comfort. Onboard hex wrench for fast, accurate bevel adjustments. Built-in dust blower clears the line of cut for increased accuracy. Through-the-body dust port for use with a dust nozzle (optional accessory) and vacuum (optional accessory) provides efficient dust management.
